# The Robert Scott Bell Show: Homeopathic Hits - Guarea Trichiloides

## Guarea trichiloides: The Inflamed Eyes, Conjunctivitis and Sweating Cough Remedy

**Introduction:**
Today's Homeopathic Hit is Guarea Trichiloides, commonly known as Ballwood. Boericke highlights this remedy for inflamed and swollen conjunctiva, tearing pain and pressure in the eyes, distorted vision, alternating eye and hearing symptoms, and respiratory irritation with cough, sweating, and chest tightness.

**Origin of Guarea trichiloides:**
Prepared from the Ballwood plant, Guarea trichiloides has a focused remedy picture involving the eyes, hearing, head, and respiratory tract. Its eye symptoms have been clinically verified, with Boericke noting its use in chemosis and pterygium.

---

## Key Characteristics and Primary Uses

**Inflamed and Swollen Conjunctiva:** The conjunctiva may appear markedly irritated, congested, and swollen.
**Chemosis:** Prominent swelling of the conjunctival tissue is included in the verified remedy picture.
**Pterygium:** Boericke notes that pterygium has been treated successfully with this remedy.
**Tearing Eye Pain:** Pain in the eyeballs may feel tearing, tense, or as though the eyes are being forced outward.
**Distorted Vision:** Objects may appear gray or seem to be upside down.
**Alternating Eye and Ear Symptoms:** Eye complaints may alternate with diminished hearing.
**Epiphora:** Excessive watering of the eyes is part of the remedy picture.
**Head Sensation:** There may be a sensation as though the brain were falling forward or as though the head had been struck.
**Respiratory Irritation:** Cough may occur with sweating, chest pain, chest tightness, and irritation of the larynx.
**Lupus-like Skin Discoloration:** Boericke includes lupus with an ochre-red appearance.

---

## Dosages and Potencies

**Boericke's Dose:** Tincture.
**Low to Medium Potencies:** 3x, 3c, 6x, 6c, 12x, 12c, 15x, 30x, 30c.
**Higher Potencies:** Consult your favorite homeopath through GNHShealing.com or VibrantLife247.com.

# Complementary Remedies

Based on conjunctival inflammation, chemosis, pterygium, tearing eye pain, altered vision, diminished hearing, and respiratory irritation

**Apis mellifica:** Compare where marked conjunctival swelling, burning, and oedema dominate.

**Euphrasia officinalis:** Compare in inflamed, watering eyes with irritation and profuse tearing.

**Argentum nitricum:** Compare for red, swollen conjunctiva and chronic eye irritation.

**Calcarea fluorica:** Compare where pterygium or firm tissue overgrowth is prominent.

**Silicea:** Compare in chronic eye inflammation and tissue changes with persistent irritation.

**Chininum sulphuricum:** Compare where eye symptoms are linked with diminished hearing or auditory disturbance.

**Spongia tosta:** Compare when laryngeal irritation and a dry, constricted cough accompany the picture.

**Bryonia alba:** Compare when cough is accompanied by chest pain and tightness.

---

**Cautions:**

Sudden visual distortion, severe eye pain, marked conjunctival swelling, new hearing loss, or persistent chest symptoms require prompt medical evaluation. Pterygium and other eye growths should be examined by a qualified eye-care professional.

**Conclusion:**

When the conjunctiva becomes swollen and inflamed, when the eyeballs feel tense or forced outward, when objects appear gray or inverted, and when eye symptoms alternate with diminished hearing, Guarea trichiloides reflects Boericke's focused remedy state - a Ballwood remedy centered on verified eye symptoms, altered vision, hearing changes, and respiratory irritation.
