The Robert Scott Bell Show: Homeopathic Hits - Mangifera indica

Mangifera indica: The Passive Haemorrhage, Sinus/Throat Congestion and Varicose Vein Remedy

Introduction:
Today's Homeopathic Hit is Mangifera indica, commonly known as the Mango Tree. Boericke presents it as one of the best general remedies for passive haemorrhages, including uterine, renal, gastric, pulmonary, and intestinal bleeding tendencies. Its picture also includes rhinitis, sneezing, pharyngitis, catarrhal and serous discharges, chronic intestinal irritation, varicose veins, drowsiness, poor circulation, and relaxed tissues.

Origin of Mangifera indica:
Prepared from the Mango Tree, Mangifera indica reflects a remedy picture centered on relaxed mucous membranes, passive haemorrhage, catarrhal irritation, throat constriction, sluggish circulation, and skin swelling with intense itching.

Key Characteristics and Primary Uses

Passive Haemorrhages: Boericke calls this one of the best general remedies for passive haemorrhages.
Uterine, Renal, Gastric, Pulmonary and Intestinal Bleeding: The haemorrhagic tendency may involve multiple organs and mucous surfaces.
Rhinitis and Sneezing: Nasal irritation, sneezing, and rhinitis are part of the acute catarrhal picture.
Pharyngitis and Throat Trouble: Acute throat symptoms may include a suffocative sensation as though the throat would close.
Relaxed Mucous Membranes: Boericke emphasizes relaxation of the alimentary canal mucous membrane.
Catarrhal and Serous Discharges: Discharges may be catarrhal or serous, with chronic mucous irritation.
Chronic Intestinal Irritation: Digestive tract irritation is included in the remedy sphere.
Varicose Veins: The remedy picture includes varicosities and poor circulation.
Atonic Conditions: Atony, relaxed muscles, and poor circulation belong to the general state.
Drowsiness: Sleepiness and dullness may accompany the physical picture.
Skin Symptoms: The skin may feel sunburned and swollen, with white spots and intense itching.
Swelling of Ears and Lips: Boericke notes swelling of the ear lobes and lips.

Dosages and Potencies

Boericke's Dose: Tincture.
Low to Medium Potencies: 2x, 3x, 6x, 6c, 12x, 12c, 15x, 30x, 30c.
Higher Potencies: Consult your favorite homeopath through GNHShealing.com or VibrantLife247.com.

Complementary Remedies

Based on passive haemorrhages, catarrhal discharges, pharyngitis, intestinal irritation, varicose veins, poor circulation, and skin swelling with itching

Erigeron canadense: Boericke lists this comparison remedy, especially relevant to haemorrhagic states.

Epilobium: Boericke lists this comparison remedy for related mucous membrane and haemorrhagic tendencies.

Hamamelis virginiana: Compare where passive venous haemorrhage and varicose veins are prominent.

Millefolium: Compare in passive bleeding from various organs and mucous surfaces.

Phosphorus: Compare where bleeding tendencies involve the lungs, stomach, or other mucous surfaces.

Hydrastis canadensis: Compare in relaxed mucous membranes, catarrhal discharges, and digestive tract irritation.

Lachesis: Compare when throat constriction or a sense of closing is prominent.

Apis mellifica: Compare where swelling, itching, and oedematous skin symptoms are marked.

Pulsatilla: Compare in catarrhal states with bland discharges and sluggish circulation.

Cautions:

Any haemorrhage from the uterus, kidneys, stomach, lungs, or intestines should be evaluated by a qualified health professional. A suffocative throat sensation, swelling of the lips, or breathing difficulty can be urgent and should be assessed promptly.

Conclusion:

When passive haemorrhage appears across mucous surfaces, when catarrh, sneezing, pharyngitis, and a closing sensation of the throat join the picture, and when poor circulation, relaxed tissues, varicose veins, drowsiness, and itchy swollen skin are present, Mangifera indica reflects Boericke's focused remedy state - a Mango Tree remedy centered on passive bleeding, catarrhal irritation, and atonic weakness.
