The Robert Scott Bell Show: Homeopathic Hits - Natrium Carbonicum

Natrium carbonicum: The Sunstroke Exhaustion, Weak Digestion and Achilles/Ankle Remedy

Introduction:
Today's Homeopathic Hit is Natrium carbonicum, Carbonate of Sodium. Boericke highlights this remedy for great debility from summer heat, chronic effects of sunstroke, exhaustion, weak digestion, oversensitivity to noise and weather changes, nasal catarrh, and weak ankles prone to sprains and dislocations.

Origin of Natrium carbonicum:
Prepared from Carbonate of Sodium, Natrium carbonicum reflects a remedy picture centered on cellular activity, oxidation and metabolism, heat exhaustion, anaemic weakness, digestive sensitivity, catarrhal states, and weakness of the extremities, especially the ankles.

Key Characteristics and Primary Uses

Summer Heat Debility: Great weakness may follow summer heat, sun exposure, or the chronic effects of sunstroke.
Mental Slowness and Sensitivity: Comprehension may be difficult and slow, with depression, worry, and sensitivity to noise, music, storms, and certain people.
Sun-Related Head Symptoms: Headaches may return with hot weather or mental exertion, with vertigo after exposure to the sun.
Nasal Catarrh: Constant coryza, obstruction, bad-smelling nasal secretion, posterior catarrh, and hawking of mucus are prominent.
Facial and Skin Signs: Freckles, yellow spots, pimples, swelling of the upper lip, cracked skin, vesicular eruptions, and raw, sore soles may appear.
Weak Digestion: The stomach feels swollen and sensitive, digestion is disturbed by slight diet errors, and there may be water-brash, sour stomach, belching, and aversion to milk.
Milk Diarrhoea: Boericke notes diarrhoea from milk, with sudden urgent stool and yellow pulp-like discharge.
Female Complaints: Bearing-down, late scanty menses, induration of the cervix, soreness, and offensive irritating leucorrhoea are included.
Respiratory Symptoms: Dry cough may come on when entering a warm room from outdoors, with coldness of the left side of the breast.
Weak Ankles and Old Sprains: Ankles may sprain or dislocate easily, with great limb weakness, soreness between toes and fingers, and Achilles involvement.
Modalities: Worse from sitting, music, summer heat, mental exertion, thunderstorms, draughts, weather changes, and sun; better by moving and by boring in ears and nose.

Dosages and Potencies

Boericke's Dose: Sixth potency.
Low to Medium Potencies: 6x, 6c, 12x, 12c, 15x, 30x, 30c.
Higher Potencies: Consult your favorite homeopath through GNHShealing.com or VibrantLife247.com.

Complementary Remedies

Based on summer heat debility, sun headaches, catarrh, weak digestion, milk diarrhoea, female bearing-down symptoms, cracked skin, weak ankles, and Boericke's listed relationships

Natrum sulphuricum: Compare in heat, weather sensitivity, bilious and digestive disturbance, and constitutional Natrum patterns.
Causticum: Compare in external nose troubles, weakness, old sprains, and foot-bending weakness.
Glonoinum: Compare where sun exposure, heat, or gas-light aggravates head symptoms.
Sepia: Compare in bearing-down sensations, pelvic heaviness, and female complaints.
Murex: Compare in uterine bearing-down and pelvic pressure states.
Nitric acid: Compare where scanty, watery, meat-washing-like menses and mucous membrane irritation are prominent.
Ambra grisea: Compare where nervous sensitivity to music, noise, and social presence is marked.
Arsenicum album: Boericke lists Arsenicum as an antidote; compare in weakness, anxiety, digestive upset, and burning or irritated discharges.
Camphora: Boericke also lists Camphor as an antidote.

Cautions:

Severe heat exhaustion, persistent vertigo after sun exposure, chronic diarrhoea, significant weight loss, ongoing respiratory symptoms, or gynecologic symptoms such as offensive discharge, abnormal bleeding, or cervical induration should be evaluated by a qualified health professional.

Conclusion:

When summer heat drains the vitality, when the head and digestion suffer from sun, diet, milk, or weather changes, when nasal catarrh persists, and when weak ankles and old sprains tell the story of poor tone, Natrium carbonicum reflects Boericke's distinctive remedy picture - a Carbonate of Sodium remedy centered on heat debility, weak digestion, catarrh, and ligamentous weakness.
